

The new secure, personal home package management amenity designed to accept packages from any delivery carrier.

Security

Keeps packages locked out of sight until you're able to retrieve them.

Convenience

Storage space for multiple packages means less "missed delivery" slips for you.

Protection

Guards packages from rain, snow and other harmful elements.

MyPackageConcierge® integrates and blends into your new home so seamlessly... only you and your parcel carrier will know it's there!

Sample shipping address:

First & Last Name

House # & Street Name on Line 1

*Input XXXX in MyPackageConcierge on porch
City, State & Zip Code*

Want to deter Porch Pirates from visiting your new home?

Install MyPackageConcierge®! We all love the convenience of ordering online and having merchandise delivered to our home. But packages delivered while we're away from home often sit out in the open and invite theft.

How does MyPackageConcierge® work?

Your parcel carrier simply uses an access code you provide in the shipping address when you purchase something online. Whatever you write into the address appears on the packaging shipping label. Your carrier reads the shipping label to deliver your package - sees the access code - punches the code into your MyPackageConcierge® to unlock the door and deposits your package. It's really that simple!

Where can I get MyPackageConcierge®?

Just ask your builder for this new home amenity and let them take care of it for you!

MyPackageConcierge®

Getting to know your MyPackageConcierge®

1. Internal package compartment size is 34.5" High x 12" Wide x 15" Deep
2. Constructed of heavy aluminum and stainless steel for superior strength
3. Rugged, corrosion resistant powdercoat finish resists scratching
4. Push button lock provides homeowner and delivery carrier easy access
5. User resettable combination lock - no electricity required
6. Recess mount design integrates seamlessly in an exterior wall
7. Water intrusion management system (patent pending) that discharges water from interior compartment – system tested to ASTM E331/E547
8. Available in multiple finishes to complement your home's architecture

White (PMS White)

Postal Grey (413C)

Antique Bronze (8622C)

Dark Bronze (Black 7C)

Silver Speck (877C)

Gold Speck (7-5C)

Siting your MyPackageConcierge®

Choosing a location that is convenient for you and for your parcel carrier is very important. Installing into an unconditioned space such as a garage or storage area is recommended.

Since packages are typically delivered to the front door, siting your MyPackageConcierge® in your front porch area is optimal - from both a convenience and protection perspective.

If the porch is not ideal due to your floorplan, then close to the porch in a covered, protected location is the next best alternative.

Carriers will happily use your MyPackageConcierge® if it is located in a convenient location that doesn't add time to their delivery process.

Using MyPackageConcierge® is so easy for homeowners!

1. Setup access code on resettable combination lock
2. When ordering something online, enter your MyPackageConcierge® access code in the shipping address
3. Carrier quickly deposits package in MyPackageConcierge® – closes and locks the door and moves on to their next delivery

Sample shipping address for reference:

First & Last Name

House # & Street Name on Line 1

Input XXXX in MyPackageConcierge on porch

City, State & Zip Code

Internal compartment size accommodates multiple smaller packages in common, popular sizes up to 34 x 12 x 15 inches.

Designed to provide Peace of Mind

Water Intrusion Management – the MyPackageConcierge® design incorporates a patent pending water management system tested to ASTM E331/E547 that discharges water through the front of the unit to protect from inadvertent water intrusion into the home interior area.

Auto-Locking – to help ensure the MyPackageConcierge® is always locked when not in use, the mechanical locking mechanism includes a cam that auto-locks simply by closing the door.

Parcel Carrier Customer Services & Communications Options

Did you know that each of the major national parcel carrier companies offer free customer services that allow you to provide written special instructions for package deliveries to your home? Creating accounts with the carriers is super easy and free. **You can choose to receive email or text communications that will be sent to you with each package delivery.**

The links below will take you to sections of the carrier websites where you can create special instructions for your address that will help your carriers understand your needs as it relates to delivering packages to you at home. While these types of instructions are not required for carriers to use MyPackageConcierge® at your home – these services can be very helpful to you in a number of ways – including providing you visibility to your package on its delivery route to your home via email or text communications.
